Call KTS for a free, confidential consultation today. KTS Pooled Trust allows elderly and disabled individuals with income that exceeds the allowable limit to receive Home Care through Community Medicaid while staying in their homes. To qualify, any income above the allowable limit, known as excess or surplus income, must be deposited into the Pooled Trust each month. The funds deposited into a Pooled Trust can be used to cover the member’s basic living expenses. KTS Pooled Trust, the highest-rated trust in New York, ensures that individuals in need of Home Care and Community Medicaid can receive the assistance they require while staying in their own homes and avoiding nursing homes.
