We're Packaging Now, and we've been supplying packaging materials across the UK for over 20 years. Our store has everything from cardboard boxes and postal boxes to book wraps, parcel wrap, envelope boxes, bubble wrap rolls, and all the other bits you need to pack things properly. We make most of our products ourselves from our own paper supply, which means we can keep the quality high and the prices fair. Need something quickly? We deliver next day across the UK. Not sure what you need? Give us a ring and our team will help you figure it out. Quality products that arrive on time, straight to your door.
