We at PLACELIFT and our teams have over 20 years’ of building experience in and around the island, putting you and your project in the safest of hands. Our building expertise is backed up by our very own network of trusted suppliers, giving us the ability to deliver to a high standard on any task required, from the construction of an extension to a multi-unit residential or commercial development.

We understand that bringing workers into your home can be a disruptive and sometimes nerve-racking experience. We aim to put you at ease from the very first encounter. Although we endeavour to provide a competitive quote on all the works for which we are invited to tender, we recognise that price is only one aspect of the job. In addition to affordable pricing, PLACELIFT strives to deliver a superior standard to that of our competitors while also completing the works in an efficient time manner, enabling you to go back to enjoying the comforts of your home as quickly as possible.

PLACELIFT has achieved a remarkable reputation in the industry and has also gained healthy experience in all types of renovations and construction projects. We are always dedicated to understanding your potential requirements and convert them into a reality through our expert solutions. All our works are guaranteed to exceed industry standards and building construction criteria set forth by the local authorities.
