FARENIO is a France-based **digital cleaning marketplace and property operations platform** operated by Adeola Cleaning Services.

The platform connects **clients, property managers, and short-term rental hosts** with **independent, vetted, and insured cleaning professionals** across France, with strong coverage in **Paris and Île-de-France**.

FARENIO operates as a **technology intermediary**, not a direct cleaning provider. Through its platform, users can **book, manage, and automate cleaning services** for:

- Residential homes and apartments
- Offices and commercial spaces
- Airbnb and short-term rental turnovers
- Post-construction and deep cleaning
