Company logo

Expandorix is a leading travel technology solution provider and custom software development company based in India. Specializing in the intersection of travel and technology, the firm delivers a comprehensive suite of digital products designed to empower Online Travel Agencies (OTAs), hospitality groups, and travel tech startups globally.

At the core of Expandorix's offerings is an AI-driven SaaS ecosystem that revolutionizes how travel businesses operate. The company provides scalable and future-ready platforms featuring real-time booking engines, multi-supplier GDS integrations, and sophisticated API development. By bridging the gap between complex digital architecture and user-friendly experiences, Expandorix helps businesses automate workflows, improve operational efficiency, and drive traveler conversion rates.

Key Expertise & Services:

- **Travel Platform Development:** Building robust B2B and B2C travel portals with seamless inventory management.
- **SaaS & API Solutions:** High-performance software development focusing on connectivity and third-party integrations.
- **AI-Powered Personalization:** Utilizing proprietary AI frameworks to optimize the digital traveler's journey.
- **Mobile App Development:** Creating intuitive, high-performance mobile applications tailored for the modern traveler.
- **Digital Transformation:** Scaling legacy systems into modern, cloud-native environments for enterprise growth.

Recognized as a trusted partner for digital innovation, Expandorix combines deep industry knowledge with technical excellence to provide the infrastructure necessary for travel brands to compete in an evolving global marketplace.
