ELWA Energysavers Australia delivers innovative, energy-efficient LED lighting and instant electric hot water solutions for residential, commercial and industrial projects, backed by expert support and nationwide service.

ELWA Energysavers Australia is a trusted provider of energy-saving solutions, specialising in high-performance LED lighting systems and instant electric hot water heaters designed for residential, commercial and industrial use. With roots in energy efficiency innovation and manufacturing expertise since 2008, ELWA crafts products tailored to Australian and New Zealand conditions that dramatically reduce power consumption, lower operating costs and support sustainability goals.

Their extensive product range includes advanced LED luminaires, lighting upgrades and robust Hotrun X electric instantaneous water heaters all engineered for durability, compliance with local standards and long service life. ELWA also assists businesses to access government energy-efficiency rebates and incentives.

From schools and defence facilities to hospitality and industrial sites, ELWA’s energy solutions are backed by knowledgeable project support, reliable installation services and a commitment to customer satisfaction. Whether you’re planning an energy upgrade or seeking lower long-term energy costs, ELWA offers innovative, cost-effective systems built for performance in Australia’s diverse environments.
