Method Dynamics USA provides high-quality AR components including light mounts, handguards, and suppressor accessories. Their lineup features M-LOK, Picatinny, and KeyMod mounting systems, free-float and drop-in handguards for AR-15 and AR-10 platforms, plus QD mounts, direct thread adapters, and muzzle devices. Designed for durability, modularity, and performance, these products support customization, improved handling, and reliable operation across modern rifle builds.
