Balaklava Prime Dental - We offer more than just fixing your teeth. Our vision is to carefully listen to you and make you happy on all levels. We understand your dental problems, concerns and goals and help to shape them with practical and scientific advice.
With us, there are no surprises as we do our best through each team member to give you the details of the broader image so you know what to expect with every single procedure.
Building relationships, providing quality treatment and utilising technology delivers a straightforward approach to dentistry, so that you are comfortable and informed of your dental options, resulting in the best possible outcome.
