Australian DPF Centre is a trusted specialist in Diesel Particulate Filter (DPF) cleaning and restoration, serving vehicle owners across Australia. Using advanced ultrasonic and flash jet technology, their skilled technicians restore blocked DPF systems to peak performance without invasive repairs. The company offers tailored service packages for cars, trucks, buses, marine engines, and heavy machinery, ensuring reliable results for both private and fleet clients. In addition to DPF cleaning, Australian DPF Centre provides services such as engine carbon cleaning, SCR, DOC, and EGR maintenance. With detailed diagnostics, same-day service options, and a 12-month warranty, they focus on improving fuel efficiency, restoring engine power, and reducing harmful emissions while helping customers avoid costly replacements
