Combs Bee Farm is a small family owned and operated honey farm, raising honey bees in Milford Center, OH and throughout central Ohio. We offer quality pure, raw, seasonal honey, handcrafted soap, beeswax, beeswax candles, lip balm, bees, bee equipment and our Ohio queens. We are an authorized dealer of Kelley Beekeeping products and typically stock a variety of honey containers for bottling. We currently manage over 100 hives in central Ohio and are continuing to grow. Our bees are from bee removal rescues in central Ohio which we relocate around our local area to thrive and bring a wide variety of flavor. Whether you want honeybees for sale, raw honey or Ohio nucs for sale, we hope to educate and encourage public awareness to help protect the habitat for honeybees. For information call Combs Bee Farm in Milford Center, OH today.
