Autosoft Training & Solutions is a trusted engineering training institute in Pune offering industry focused training programs for students, graduates, diploma holders, and working professionals. The institute specializes in Mechanical Design, CAD, CAM, CAE, Embedded Systems, IoT, and industrial automation courses designed to help learners build practical skills and advance their careers. With a strong focus on hands on learning and real world applications, Autosoft prepares students to meet the evolving demands of the engineering and manufacturing industries.

The institute offers a comprehensive range of professional courses, including AutoCAD, CATIA V5, SolidWorks, Creo, NX CAD, ANSYS, BIW Design, Plastic Product Design, Mechanical Design, Embedded Systems and AUTOSAR. Each course is designed according to current industry requirements and includes practical assignments, live projects, software based training, and case studies to provide students with valuable technical experience.

Autosoft Training & Solutions is committed to delivering quality education through experienced trainers who bring real industry knowledge into the classroom. The training methodology combines theoretical concepts with extensive practical sessions, allowing students to gain confidence in using industry standard engineering software and technologies. Small batch sizes, personalized guidance, and continuous assessment help ensure an effective learning experience for every student.

In addition to technical training, the institute supports students with career development services, including resume building, interview preparation, career counseling, personality development, and placement assistance. These services help learners improve their employability and prepare for opportunities in industries such as automotive, aerospace, manufacturing, product design, industrial automation, electronics, and embedded systems.

Autosoft provides flexible learning options through both classroom and online training, making it convenient for students and working professionals to enhance their skills. The institute continually updates its curriculum to reflect the latest technologies and industry trends, ensuring that students receive relevant and practical knowledge.

Whether you are looking for CAD Classes in Pune, a CATIA Training Institute in Pune, Mechanical Design Courses, Embedded Systems Course in Pune, or advanced engineering software training, Autosoft Training & Solutions offers programs that support career growth and professional development. With a practical learning approach, experienced faculty, modern training facilities, and industry relevant curriculum, the institute helps aspiring engineers develop the technical expertise and confidence needed to succeed in today's competitive engineering environment.
