Georgie was inspired by the desire to create a restaurant that offers a world-class dining experience executed to the highest culinary standards.

Walk through the custom-built mahogany doors and into a dining experience with a focus on aesthetics and culinary creativity. Georgie, designed by Brooklyn-based architectural firm, GRT, was designated Best New Design by Eater Awards and features elegant elements such as travertine and marble floors, coffered ceilings, plush orange upholstered booths, and artwork by French photographer, Julien Drach.
