iWeb Scraping is a USA-based enterprise web data scraping and intelligence company established in 2009. With over 16+ years of industry experience, we deliver scalable, automated data solutions to businesses across the United States, Germany, India, and global markets.

We specialize in enterprise web scraping and AI-powered data extraction, competitive price intelligence and real-time price monitoring, market and competitor intelligence, custom scraping APIs, and advanced data analytics with interactive dashboards. By combining scalable infrastructure, intelligent automation, and machine learning technologies, we provide accurate, timely, and actionable insights tailored to complex business needs.

iWeb Scraping serves a wide range of industries, including eCommerce & Retail, Food & Restaurants, Grocery, Real Estate, Hotels, Travel & Airlines, Social Media, Healthcare, Finance, and more. We help organizations transform large volumes of unstructured web data into strategic intelligence that drives growth, strengthens competitive positioning, and improves operational efficiency.

With a strong commitment to data accuracy, compliance, and enterprise-level support, iWeb Scraping empowers businesses to unlock the full potential of web data for sustainable growth and long-term success.
