Schilthorn Precision Engineering Pvt. Ltd. (SPEL) is an AS9100-certified precision CNC machining company headquartered in Gujarat, India, delivering high-quality custom manufactured components to global OEMs for over 15 years. We are a one-stop contract manufacturer offering precision machined components, aerospace & space parts, brass connectors for HVAC systems, heat exchanger tubesheets, casted machined components, moulding inserts, CPVC fitting inserts, industrial fasteners, injection moulded components, and complete assemblies.

Our advanced manufacturing capabilities include multi-axis CNC machining (VMC/HMC), EDM, CNC grinding, laser cutting, hot forging, welding & fabrication, and surface treatment — all backed by rigorous in-house quality inspection and CAD-CAM design support.

Certified to AS9100 quality management standards, Schilthorn serves demanding sectors including Space & Aerospace, Automobile, Oil & Gas, HVAC, and Fittings & Fasteners. We have also been recognized with the Best Import Localization Award by Hitachi for Process Improvement Excellence.

Partner with us for reliable, tight-tolerance precision parts manufactured in India and exported globally. Get a quote and reduce your part cost by up to 8%.
