Canada’s Leading Manufacturer of Warehouse Storage Solutions and Systems

DESIGN – MANUFACTURE – INSTALL – SERVICE

We Service All Your Warehouse Storage System Needs.

With more than five decades of experience and a skilled professional team of engineers, installers, and customer service representatives, Space Aid Manufacturing is committed to providing outstanding solutions to all our customers.

All our products are designed in compliance with government regulations, including the Canadian Standard Association (CSA), Rack Manufacturing Association (RMI), Municipal and provincial building codes and the occupational health and safety act (OHSA) where applicable.

Proudly Canadian, Industry Leader of Warehouse Storage Solutions and Systems

Space Aid Manufacturing is one of Canada’s largest independent manufacturers of material storage products with distribution from coast to coast.

Every warehouse storage system is sourced, proudly designed, engineered, and manufactured in Canada — delivering exceptional quality, durability, and precision to meet the highest level of industry standards.

By choosing Space Aid, you’re not just investing in reliable storage solutions — you’re supporting Canadian craftsmanship and local manufacturing excellence.
