Welcome to Harry The Mover. We handle house and office removals across Melbourne suburbs, including Williams Landing, Point Cook, Werribee, Hoppers Crossing and St Kilda, as well as interstate Australia. Our experienced team uses tail lift trucks and can help with packing, unpacking, packing materials, furniture assembly and disassembly. We take extra care with fragile and valuable belongings, including glassware, artwork, antiques and electronics.

Every move is different, so we look at what you are moving, the property, access and your moving date before providing a quotation. Our consultants help you choose the right service for your needs and avoid paying for things you do not require. We can also arrange end-of-lease cleaning and offer insurance options on request.

Planning a house or office move? Speak with our team for practical advice and a clear quote from experienced removalists Melbourne.
