Electronic Metrology Laboratory, LLC (EML, LLC) was founded in 1997 with its headquarters established in Franklin, TN. EML's Quality Management System is registered to the ISO 17025:2005 quality standard. It is also composed of a number of key elements designed to verify the quality of our services and used to affect continual improvement for both our mobile and local lab. Our business processes are based on proven quality practices reinforced by skilled employees and a professional management staff.
