Meet The Team

A LITTLE BACKSTORY

At Drapery by Anna Maria Inc., luxury window treatments are built on a legacy of passion, precision, and family. A mother-and-son team working in harmony, Anna Maria and Dom transform interiors through a seamless blend of artistry and operational excellence, creating custom drapery that elevates every space.

With over 30 years of global experience in design, fashion, and couture-level sewing, Anna Maria has dedicated her life to her craft. As a highly skilled seamstress and designer, she brings deep expertise in textiles, construction techniques, and interior design, driven by a lifelong passion for timeless, elegant interiors and inspiration from design influences around the world.

Her son, Dom, grew up immersed in this world of craftsmanship, spending his formative years in Anna Maria’s sewing room learning fabric, construction, and design principles firsthand. As he matured, he developed expertise in business operations, leadership, and project management before returning to help expand the family business.

Together, they form a complementary partnership: Anna Maria leads creative direction, fabric selection, and hands-on craftsmanship, while Dom oversees project management, logistics, and client experience. His focus on organization and customer care ensures every project runs smoothly from consultation through installation. This balance between artistry and structure allows the business to operate at the highest level of precision. Every project is thoughtfully managed, carefully executed, and tailored to the individual needs of each client.

At Drapery by Anna Maria Inc., we believe exceptional interiors are created through collaboration, trust, and craftsmanship. From concept to completion, our team is committed to delivering a seamless, white-glove experience and custom window treatments that reflect both refined design and lasting quality.
