Rehabana – Best Rehab center in Kolkata is east India’s first dedicated Neuro Rehab for Stroke, Spinal Cord Injury, and many other neurological disorders or in injury.. The clinic is equipped with advance technologies created on a base of modern Rehabilitation measures. This holistic approach of this institution is to deliver the essence of Rehabilitation in it’s truest form, to get back to life with a positive attitude.

The Interventional Physiatrist and Rehabilitation Physician team consists of highly trained, dedicated, and passionate physical and occupational therapists, speech and language pathologists, and rehab nurses. Visit our Services page for more details.

The team ensures the highest possible physical, mental, and functional recovery from a neurological discorder or injury through a stepwise customized treatment protocol for individuals ranging from oral medications, interventions for spasticity, and pain management to supervised therapy and counseling sessions for individuals and families.

Rehabana – Best Rehab centers in Kolkata is east India’s first dedicated Neuro Rehab for Stroke, Spinal Cord Injury, and many other neurological disorders or in injury. We have two centers and intend to open a few more centers shortly in West Bengal and neighboring states.

These kinds of facilities are game changer in the recovery of neurologically disabled patients. It makes the difference between staying alive and LIVING A PRODUCTIVE LIFE. Such a facility is extremely dependent on advanced therapy machines, automation, Robots, and highly trained team of Doctors, Physiotherapists, Occupational therapist, Speech therapists, Psycho therapists. This kind of facility is non-existent in eastern India, and very few in the country as well.
