THE LUXDEN EXPERIENCE AT THE TOP-RATED DENTAL IMPLANTS CENTER IN BROOKLYN, NY

State of the Art Dental Implants In Brooklyn

Are you missing teeth? Are gaps in your smile causing you discomfort, embarrassment or a decreased quality of life? Rest assured, at LuxDen you will be in great hands! Dentist in Sheepshead Bay Dr. Umanoff has over 15 years of experience in placing and restoring dental implants in Brooklyn. He utilizes dental implants in many ways, including replacing a single missing tooth, to restoring multiple teeth or even reconstructing a toothless mouth. Each case is custom planned based on each patient's individual oral health situation. There are many types of dental implants available. Our professional dental team can determine which will work best for you, depending on the location of the implant and the reason for it. Ultimately, dental implants are a great alternative to bridges or dentures that are often used in order to fill gaps where there are missing teeth. There are no required adjacent teeth that need to be prepared in order to hold the new replacement tooth or teeth in place, which is a major benefit for this dental appliance use.
